# Animals

## How to use this book

This is a first activity book for children who are just beginning to learn to recognise familiar shapes together with their name.

Help your child to enjoy using the book by looking together at a few pages at a time. Looking carefully, playing the simple games, and practising working from left to right are an important part of learning fun.

Encourage your child to talk about what he or she is doing and to look for animal shapes when you are out and about together.

Have fun!
